

Efstratios Avagianos

Junior Full-Stack Developer

Hi, I'm Stratis, a 27-year-old software developer passionate about backend development and software engineering. Throughout my projects, I've gained experience integrating APIs, designing application logic, and developing solutions that prioritize performance and maintainability. I enjoy learning new technologies, tackling challenging problems, and collaborating with teams to build high-quality software. I'm currently looking for my next role as a **Backend Developer**.

EDUCATION

Computer Science

Athens University of Economics and Business

09/2017 - Present

Athens, Attiki, Greece

FAVORITE PROJECTS

All in One Raspberry Project

- Developed a self-hosted home automation platform using Raspberry Pi, Docker, Home Assistant, MQTT, and ESP32 devices. Built automation workflows, integrated smart devices, and implemented secure remote access through Tailscale. Managed multiple containerized services, including Pi-hole, Portainer, and Uptime Kuma, while developing custom IoT solutions such as a remote PC control system.

Android Development (02/2023 - Present)

- Built mobile applications using Flutter and Dart, integrating REST APIs and Firebase services for authentication and data management. Focused on creating responsive, maintainable, and user-friendly applications while following modern software development practices.

Emergency Button

- Built an ESP32-based emergency notification system that sends instant alerts to connected devices when a physical emergency button is pressed. Implemented internet connectivity, real-time event processing, and remote notification delivery.

WORK EXPERIENCE

Assistant Accountant

Black Ice Inc

02/2022 - 10/2022

Igoumenitsa, Thesprotia, Greece

Sales Assistant

Black Ice Inc

02/2022 - 10/2022

Igoumenitsa, Thesprotia, Greece

Waiter

Balloni Beach Bar

06/2021 - 08/2021
